Case Starter Fertilizer Placement Tube Part #TT-100

This tube is mounted washer down in the above pictured down tube on the planter. Simply remove the pin at the bottom of the down tube and install the fertilizer tube, making sure the 80 degree bend on the top of the tube is facing the front of the planter. Reinstall the pin through the washer on the fertilizer tube.

This product does not apply below the seed.

This tube does not fit on 2012 model Case planters or newer. For tubes that fit the 2012 & newer Case planters see part # TT-10012.
